WILSON NOT CONSISTENT ABOUT EIGHT HOUR DAY. Does Not Enforce It in the Postoffice Department.

New York, Oct 25.—President Wil-son says the eight hour day has the senction of society, but he doesn't en-force it in the postoffice department, where it has the sanction of law. The National Federation of Postoffice announced today. It was said that until the next convention in 1919, at the president permits Postmaster Gentleman. eral Burleson to continue this violation of hw merely for the purpose of piling up an apparent surplus in his department. Thomas F. Flaherty, secretary-treasurer of the federation, who wrote to Mr. Wilson recently and urged him to do semething for the relief of the overworked postal clerks, has remired nothing but a relief advantage. done for the men whom he represents. Mr. Flaherty has written another let-ter to President Wilson in which he says that Postmaster General Burleson one for the men whom he represents "has made no noticeable effort to cor-rect the abuses to which I called your attention, namely, the additional hours of labor forced upon postoffice dis-tributors, in violation of the spirit of our eight law, and in contravention of our eight law, and in contravention of your own admirable views on the advantage of confining the work day to eight hours." Mr. Flaherty adds that the postal department officials have been aware of the condition completined of for months, but have failed to act, and he urges the president to make a personal investigation.

VILLA IN ASCENDANCY

IN NORTHERN MEXICO Early Withdrawal of American Troops

is Out of the Question. Washington, Oct. 25 .- Conditions in northern Mexico, revolving on the new ascendancy of Villa as a military leader, are commanding more attention than at any other time since the raids which resulted in the despatch of the

American punitive expedition.
Administration officials made no effort tonight to disguise, their opinion that the Mexican American commission sitting at Atlantic City cannot be expected to arrive at a satisfactory solution of border problems until the solution of border problems until the situation in Chihuahua has been clarified. Any agreement for the early withdrawal of General Pershing's forces from Mexico apparently now is considered out of the question.

Moreover, the impression stood out clearly from all the views expressed that while the present situation exists there is little possibility that the forces of regulars or national guardsmen on

of regulars or national guardsmen on the border will be reduced. It was indicated that no chances would be taken of another raid into American territory.

territory.

Coupled with ugly reports which disparage the stability of General Carranza's regime and interpret his removal from Mexico City to Queretaro as a sign of the breaking up process which his enemies have repeatedly predicted, the military movements of Villa, now making a formidable campaign in Chihuahua, are regarded here as menacing the de facto government's as menacing the de facto government's control of the whole of the northern

French Tuesday made their spectacular drive over a wide front north and northeast of Verdun, they are still Prominent in the whole situation are apparently well founded but indefinite reports of the connection of the socalled Legalista movement with the whole train of events, which are expected by those familiar with the Mexican situation here to develop the French in this region. Elsewhere along the front where the French and

DOMINATION BY ALLIES

OF RAW MATERIAL a Commercial After the War.

Washington, Oct. 25.—Domination by the allied nations of the world's raw materials, which are essential to American manufactures, has been proved conclusively to officials here by the completion today of a comprehensive summary of British trade policies as to imports into this country. As a result, the recent Paris economic conference of the enterte powers is regarded here with far greater disquiet than before.

The proposed commercial war after the war, at first viewed skeptically as outlinin policies, which could not sur-vive the heat of war or the operation of perennial economic forces, is looked upon as a more practical proposition in the light of the investigation. Consequently, an earnest study of the facts available is being made and every effort extinded to supplement the in-

the prayer-book in its present form. A commission appointed to suggest methods of revision of the Book of Every Indication since the conference has tended to decrease the feeling ried through. Since then, it is pointed out, the blacklist, which has been enbers of the commission said today, however, that this suggestion would not be pressed. Discussion of other phases of the proposed revision is to be resumed late today.

In the upper house the election of missionary bishops to succeed the late Right Rev George Rule. It is higher than the more than allies. What is more, the agreement made then for the closer economic unity between the governments is shown by reports now coming in to be working out through mutual concessions excluding out the countries. forced by England for some time has sions, excluding other countries from their benefits, though not necessarily viewed as illegally discriminatory by the United States so long as confined

WHEAT NOW UP

TO THE 1898 PRICES High Level of "Leiter Corner" Touched on Chicago Market.

Chicago, Oct. 15.-Wheat for May delivery today gold at \$1.55 per bushels, the top price of the "Leiter corner" of 1898, and, with that exception, the highest in 28 years. The price broke sharply, after reaching that level. Cash corn prices advanced to the highest since the Civil War. Old No. 2 yellow sold at \$1.69. New No. 4 yel-low at 99.

Chicago, Oct. 25 .- Wheat buying totered into by the Mexican-American day, which was on an immense scale, joint commission within a few days, it appeared a virtual certainty today ports that the drought damage in Arthur a serious effort would be made to have the conference transferred to of a disaster, and was continuing to grow worse.

That an agreement will not be reached before General Carranza has demonstrated his ability to eliminate Villa and his followers is admitted by those in touch with the commissioners. The Mexicans were still without definite news of the progress of the company of

PROPER TEMPERATURE IS

IMPORTANT TO BEST WORK Thermometer Should Register Between 50 and 65 Degrees.

Cincinnati, O., Oct. 25,-Proper temperature is important to the best work of humans, according to Professor C. E. A. Winslow, professor of public health of Yale University, and chairman of the New York state commission on ventilation, who spoke here today at the annual convention of the American public health association. To do the most work in the smallest period of time a person must be in an atmosphere in which the thermometer registers between 59 nd 65 degrees,

declared Professor Winslow. TWENTY MEN EXECUTED

IN MEXICO CITY For Participating in Robbing Freight Consignments.

Laredo, Texas, Oct. 25.-Twenty men, principally warehouse men, have been executed in Mexico City during the past week for participating in robbing freight consignments through fraudulent bills of lading, according to reliable information received here to-day. Robbery of freight cars has been so frequent recently on the constitu-tionalist lines that merchants have rirtually abandoned shipments, it was sald.

Hughes Answers New British Loan 5 Great Questions

MUSIC, BROOKLYN

The Others Include Preparedness, Ef-

fective International Organization, Visible Authority, and Strength of Our Army and Navy.

New York, Oct. 25 .- Charles E Hughes tonight told an audience in the Academy of Music, Brooklyn, why, in his opinion, the young men of the nation should support the republican ticket at the next election. Five chief reasons were cited, in answer to the "What sort of country does Young America, vibrant with patriotism, de-

Questions Answered. Mr. Hughes answered the question,

in part, as follows:
"First, he wants a country respected throughout the world. He wants a country which respects the dignity of its citizenship. "Second, Young America must de-

sire a country that is prepared for every emergency.
"Third, Young America, looking ahead, must desire that when peace is once more restored we shall contrib-ute to its maintenance by doing our proper share to secure a practicable and effective international organiza-tion in the interests of peace.

"Fourth, Young America wants gov-ernment in the open by visible con-stitutional instruments, not by unoffi-cial spokesmen or invisible authority. He also wants a government not sec-tional but truly national.
"Fifth, Young America wants indus-

Assailed Wilson's Administration

In citing his second reason, Mr. Hughes assailed the administration for lack of preparedness, referred to "manifest defects" in the army reorganization bill, declared that the nav department had "incapable leadership and touched upon a recommendation by Secretary Garrison in June, 1914, that the regular army be filled to its 'full strength," Hughes said, that had been ignored "I am informed upon competent au-thority," Mr. Hughes said, "that had there been the addition to the regular army then desired by Secretary Gar-rison, it would not have been necessary to send our national guard to the border." the border."

In discussing the administration's alleged failure to prepare, Mr. Hughes

said: Would Not Change Its Attitude. "The president informed congress in December, 1914, that the adminis-ration would not change its attitude because some among us are 'nervous and excited.' It was said that the country had been misinformed; that the administration had not been neg igent of national defense. This was four months after the outbreak of the nearly eight

European war and months after Vera Cruz. mended in his report for the fiscal year ending June 30, 1914, "he exist-ing organization" which composed the aggregate mobile forces of the regular army should be filled up to their full strength.' This, he said, would require 25,000 men. He also recommended that with this increase, there should be authority to obtain 1,000 more officers. I understand that this recommendation was ignored. also informed upon competent author-ity that had there been the addition to the regular army then desired by Secretary Garrison it would not have been necessary to send our national guard to the border.

Businesslike Action Demanded. "What was needed on the part of the administration was no exhortations, not wholly devoid of 'nervousness,' but the businessilke action demanded

the condition of the times. One the very few strong men the pres-ent gathered about him left the cabnet rather than be responsible for seriously mistaken policy.
"I cannot now review the army re-organization bill and its manifest de-

fects. I must content myself with saying that I believe we should have regular army large enough for the or regular army large enough for the or-dinary military demands in the ab-sence of grave national exigencles and that our first citizen reserve should be trained and controlled by federal authority. In the administration of the navy department we have had in-capable leadership. The young men of the country cannot fail to take a special interest in these matters. We propose to have adequate preparedness propose to have adequate preparedness and the efficiency of administration which is its indispensable condition."

JAPAN NOW CONTROLS THE PACIFIC OCEAN

Her Paper Manufacturers Able to Underbid American Manufacturers.

New York, Oct. 25.—Japanese paper manufacturers are able to purchase their raw material in Canada and underbild American manufacturers on the finished product, according to James A. Emery, general counsel of the national association of manufactures, who spoke before the National Machine Tool Builders' association at the closing session of its 15th annual the closing the closing session of its 15th annual convention here today. He made the statement while urging American busness men to turn their attention from

"Japan is now refinancing herself by selling munitions to Russia," Mr. Emery said. "Japan now controls the western ocean. western ocean. Her commercial flect dominates that sea."

NORWAY TO PROHIBIT FOREIGN SHIP BUILDING

To Stop Placing of Orders for Ships Intended to Fly Norwegian Flag

York, Oct. 25 .- Advices received here by ship brokers and local representatives of Norwegian steamship lines indicate that a law prohibiting the placing of orders for new tonnage intended to fly the Norwegian flag, with foreign ship yards, is contem-plated by the Norwegian government. These reports have reached the consul-general of Norway and a cable asking for information despatched by him Tuesday had not been replied to by his government up to late to-

TO AUDIENCE IN ACADEMY OF MADE BY BANKING HOUSE OF J. P. MORGAN & CO.

FIRST ONE IS DIGNITY BEARS 51/2 P. C. INTEREST

May Cause Cessation of Inflow of Gold Into This Country Which Was Endangering Inflation and Fictitious

New York, Oct. 25. — Official an-nouncement was made today by J. P. Morgan and company that a new British loan by American bankers, aggre gating \$300,000,000 had been arranged. It will bear interest at 5 1-2 per cent. and is payable in two installments, one of three years and one of five years. Easy Money Market.

An interesting feature of the loan is, ecording to the firm's announcement, that, because of the easy money mar-ket here, it was arranged in advance of the time contemplated by the Brit-Ish government. Another is that it is expected to cause for a time at least a cessation of the enormous inflow of gold to this country, which is said to have caused apprehension in banking circles of late because of the danger of inflation and fictitious values.

J. P. Morgan salled for England recently to arrange for the loan and is i still there.

Favorable Time For Loan.

"A new British government loan offering," says the firm's statement,
"had not been in contemplation at the
present time, but the prevailing ease
of money and the difficulty which the
banks are having in profitably employing their funds, have led us to indicate to the British government that
the present is a favorable time for it,
establishing additional credits in
America, even though such credits may
not be immediately required. Accordingly the British treasury has today ingly the British treasury has today accepted the views of the American bankers and has authorized them to

Influx of Gold Continues. "The Dritish treasury has of late renewed its shipments of gold to this country upon a large scale. This continued influx of the metal has caused me concern in the banking community and it is believed that the issuance of the proposed loan will tend to cause at least a temporary coses. to cause at least a temporary cessa-tion in gold imports."

Final details have not yet been ar-

ranged, but the notes to be issued will be "amply secured by high grade col-ateral." The two installments will be

PROMINENT DEMOCRAT

IN HUGHES ALLIANCE. William B. Anderson, a Leading Memher of the New York Bar.

New York, Oct. 25.-William B. An-

derson, one of the most prominent members of the New York bar, and a lifelong democrat, has enrolled in the wrote that he had always voted the smocratic national ticket except when Bryan ran against Mckinley, He voted for Wilson in 1912. "The conviction for Wilson in 1812. "The conviction has been growing in me very strongly during the past year," he said, "that we can no longer look for dishiterested motives in Mr. Wilson's official acts. His vacillating, uncertain, weak hexican policy, his attitude first against and then for, then again against honest preparedness, is not indicative of a man of principle acting with a mind single for his country's good, but rather of a man seeking the easiest way out of difficulties, afraid to decide lest he might offend one body of citiway out of difficulties, afraid to decide lest he might offend one body of citizens or another, a man unable to make strong friends and yet seemingly fearful of making enemies, always self-conscious and viewing all public questions chiefly from the Mandpoint of their relation to himself. And then at the last comes the crowning positive proof of his weakness and self-interest, his settlement. God save the

"A man who hands over his own property under a bare threat is bad enough, but one who turns over some millions of dollars belonging to other people under like circumstances is not the type that I have learned to admire nor do I believe that any honest man even among those who benefited by his act will respect him for it. His at-tempt to disguise the real nature of act by juggling with the words ht hour day is wholly unworthy of his intellectual ability."

BIBS FOR FOUR NEW BATTLESHIPS OPENED

Prices Ranged From \$10,060,000 to \$11,475,000.

Prof. Howard L. McBain of Columbia University and Alfred C. Wess-washington, Oct. 25.—Bids for the mann of Forest Hills, L. I., were ap-

four new battleships, Colorado, Mary-land, Washington and West Virginia, Marywere opened today at the navy de-partment. While all of the tenders

also were received.

Prices for the battleships quoted ranged from \$10,050,000 to \$11,475,000 as against the department's limit for hull and machinery of \$11,500,000. A study of the bids is now in progress and awards will be made only after a careful review of the modifications proposed by every bidder has been made. It is believed, however, that the Fore River Shipbuilding Company, Quincy, Mass., will get two of the big ships and the Newport News Ship and Drydock Company the other

None of the bidders offered figures for the steam electric drive system of propulsion preferred by the navy de-

Offers in this connection provided only for the construction of the ship, the government to supply the driving machinery. For this reason quotations For this reason quotations on electric-drive ships were approximately \$00,000 lower than similar fig-ures for all steam-drive. Indications are that the electricdrive ships will be ordered. Under the appropriation act the department has funds available to complete them

under today's bids.
